

PRODUCT MAINTENANCE GUIDELINES

PAINTED FINISH

This is a high grade exterior enamel.

All exterior painted finishes will oxidize over time.

Periodic cleaning with a sponge and warm water wiped dry with a non-abrasive towel will slow the oxidation process and help to maintain the original sheen.

Finish can be waxed as desired to maintain a higher sheen. Suggested: Automotive spray on wax.

* Use of any abrasive material will damage the finish.

POLISHED ANTIQUE PATINA (PAP) FINISH

This is an uncoated natural brass finish.

No maintenance required.

Finish will darken and dull with age naturally.

Periodic cleaning with a sponge and warm water wiped dry with a non-abrasive towel will help to maintain the original sheen.

Finish can be polished as desired to maintain a higher sheen. Suggested: Non-wax furniture polish.

* Use of any abrasive material will damage the finish.
